

ECOTUBE Economical Grow LED Light Tube

for microgreens : 18W

Features:

- Ultra light weight to save your shipping cost
- easy clip and connect by quick connection dual cable
- 18W with 5700K White LED best light energy to grow microgreens
- standard 4' (120cm) Length for option, different length also available.
- Select high efficiency LEDs chips for high energy saving

Specifications:

Type	ECOTUBE T5
Part No.	ECOT5-WW-18
Photo	
AC Input Voltage	AC 100~240V
Rated Power	18W \pm 7%
Spectrum	Neutral White
	5700K
LED lifespan	>30,000 hrs
Beam Width	120°
Approval	CE Declaration , RoHS Compliance
Waterproof Grade	IP 65
Distance from Plants	20~25cm
Dimension	W38 x H45 x L 1190mm
Product finish	all-in-one integrated
All parameters tested under 25°C ambient temperature	

Applications:

Indoor Farming

Spectrum Available:

- WW = Neutral White

PPFD result @ 20cm Height
